

## Burial Options

### Pet Cemetery

Our one-acre cemetery provides spacious graves for each pet and allows you many choices for a monument or marker. Adjacent property is available for expansion when needed.

### Pet/Person Option

Southlawn Cemetery, which is adjacent to and affiliated with Palmer's Pet Cemetery, has dedicated a section for owners who would like to be buried alongside their pet. This section would allow double inscribed monuments.

## Cremation Options

### Private Cremation

A private cremation allows your pet to be cremated individually. The cremated remains are returned to you and an urn can be selected at the time of need or later. This process can be witnessed, if requested, by the family.

### Community Cremation

With this choice, your pet will be cremated with other pets and their cremated remains will be placed in our cemetery garden.

We will work with your veterinarian or you can bring your pet directly to Palmer's.
